

Dylan Lyons

DOB: 09/07/2005

I am a passionate, hardworking, and enthusiastic individual. With a thorough history in customer service, I have many skills which are transferable across the workspace such as teamwork, divergent thinking, and the ability to adapt to fast changing environments.

I am Fascinated with the world of technology. I enjoy researching new concepts and languages such as python, C*, and java.

During secondary I achieved a bronze level DofE, and I was also a part of the international student ambassador scheme where I helped students from countries such as China and Spain experience student life in England. This encouraged me to push my boundaries and improve my skills in a working environment.

EXPERIENCE

THE SUNCLIFF HOTEL

14th JUN 2021 – 26th AUG 2021

Here I initially worked as a porter where I gained skills in being a waiter and serving food at the hotel restaurant during busy hours.

FIVE GUYS CREW MEMBER

12th NOV 2021 – 10th OCT 2025

I was a fully certified crew member and trained to be a manager. After spending four years here I developed management and teamwork skills. I did this by working in a busy kitchen training staff, delegating work tasks, and managing finances.

MCDONALDS SHIFT MANAGER

12th OCT 2023 – 10th NOV 2024

At McDonalds I took a year out from Five Guys to further improve my management skills. This job allowed me to deal with in-depth analysis of each term's profits and finances, which I used to suggest changes and improvements to the whole management team.

FIVE GUYS QC

1st DEC 2024 – CURRENT JOB

Here I rejoined five guys for another two years, using the knowledge I gained at McDonalds to improve my skills in the team.

EDUCATION

Hobbies:

- . Healthy living - L2D

Twynham sixth form (A level)

- . Math - B
- . Computer science - A
- . Biology - B

Current studies:

University of Winchester
Computer science (Ba)

SKILL SETS:

- During my time at university, I have developed a good understanding of python. I am also doing further research into topics such as recursion, design patterns, and asynchronous programming so that I can integrate it into more complex solutions.
- I have also completed independent studies of web development where I learnt to create a simple website. I plan to further develop this skill so that I can use it for my professional career
- In addition, I have learnt how to deal with large data sets in EXCEL and python.
